

**High Tunstall Sports Hall Training
COVID Guidelines
Starting November 2020**

Starting from November we are incredibly fortunate and grateful that High Tunstall School will be allowing us to again use their sports hall facility for our training through the winter months

There are however some strict guidelines we MUST adhere to as a club to ensure the safety of our members, coaches, parents and of course the High Tunstall School staff and students.

- 1. We must enter and leave the Sports hall through the fire exits at the back.**
 - 2. There will be no access to main building and therefore still no access to toilet facilities**
 - 3. Parents are not allowed to stay and watch training in the Sports hall. You will be allowed to drop your children off and return to your vehicles or stay outside of the sports hall**
 - 4. Every member must bring with them to training their own hand sanitizer**
 - 5. All members must have a NEW consent form completed with updated contact details for TRACK and TRACE (most members have completed these forms in September)**
 - 6. As always if you or you child has any symptoms of Covid then please do not attend training and follow government guidelines**
- It is important we have contact details accurately updated. If a coach needs to call a parent or supervising adult to come and collect their child for whatever reason, then we will need details to do that.
 - Following each session there will be buffer period where the coach will be required to disinfect equipment and benches etc. before the next group can enter the sports hall
